**Our ref: GB0001009064**

**Your ref:**

**Date: 11/12/20**

Dear John,

**Notification number: GB0001009064**

**This letter gives our consent to the above notification**

I enclose the above notification document which indicates our consent in block 20, which is valid from 11/12/20 to 10/12/23. Shipments must not start until you have received all the required consents from competent authorities concerned. Please note that consent periods may vary between authorities.

**The Waste Shipment Regulation provides that our consent to this notification will expire three calendar years after it is issued. It is our intention that consents issued during the transition period after EU Exit will remain valid for the full three years.**

In making our decision to consent, we have taken into account the notification and movement documents supplied by you.

Our decision to consent to the notification relates only to those matters which are within our regulatory competence. Before making any shipment make sure you have all the other permissions you might need. You and the other parties to the notification are responsible for doing this for each shipment, and for complying with all applicable legal requirements and controls.

We recommend you consult other relevant regulatory bodies, such as the Health and Safety Executive, HM Revenue and Customs and port authorities before proceeding with any shipment.

**Withdrawal of consent**

If we have knowledge that you are in breach of the conditions laid down by Regulation (EC) No 1013/2006 (Waste Shipment Regulation – WSR) under Article 9 of the WSR, as competent authority of dispatch/, we are obliged to withdraw consent.

**Transport conditions**

Please ensure that all carriers listed as transporting waste across England and Wales hold a valid Environment Agency, Natural Resources Wales or SEPA waste carriers registration.

**Contract**

A legally enforceable written contract in accordance with Article 5 of Regulation (EC) No.1013/2006 must be in place for the duration of the notification.

### **Financial guarantee**

On 04/12/20 we received your application for approval of the amount of financial guarantee or equivalent insurance being provided to cover the number of active shipments proposed under notification GB0001009064.

We have decided to approve your financial guarantee and enclose a copy of your application, signed and endorsed to indicate our approval.

**Please Note:** our approval of the amount of cover is based on information that you have submitted to us in support of your application. In the event that this amount of cover is found to be insufficient to cover the costs incurred by the Agency in relation to the temporary storage, transport and disposal or recovery of the waste, we will seek to recover the balance of those costs from you under Regulation 47 of the Transfrontier Shipment of Waste Regulations 2007.

### **Guidance**

We have produced some useful guidance on what to do when you move your waste at [www.gov.uk/importing-and-exporting-waste](http://www.gov.uk/importing-and-exporting-waste).

### **Prenotifying your shipments**

You must prenotify each shipment. To do this please go to the Notification Options page on IWS Online.

You must prenotify **at least three full working days** before the actual date of shipment. We will not accept prenotification more than 30 days before the actual date of shipment.

A copy of the notification document stamped to indicate our consent must be attached to the movement document to accompany each shipment in transit.

We will send copies of this letter to the consignee and the other competent authorities.

Yours sincerely

**Rachael Noon**

**Regulatory Officer**
